HOW DOES IT EMERGE? SUSTAINABILITY CRISIS OF THE FOOD SYSTEM

Intensification &
ecological degradation

Difficulty of access to land

Disconnection with nature

Land abandonment

Loss of traditional knowledge

Lack of generational renewal

AGROLAB aims to recover the relations between rural, periurban and urban areas with economic, environmental and sociocultural solutions based on agrarian activity

AGROLAB OBJECTIVES

Designing a practical training program

Enhancing social inclusion and local communities' cooperation

Promoting sustainability through agroecological practices that enable ESs

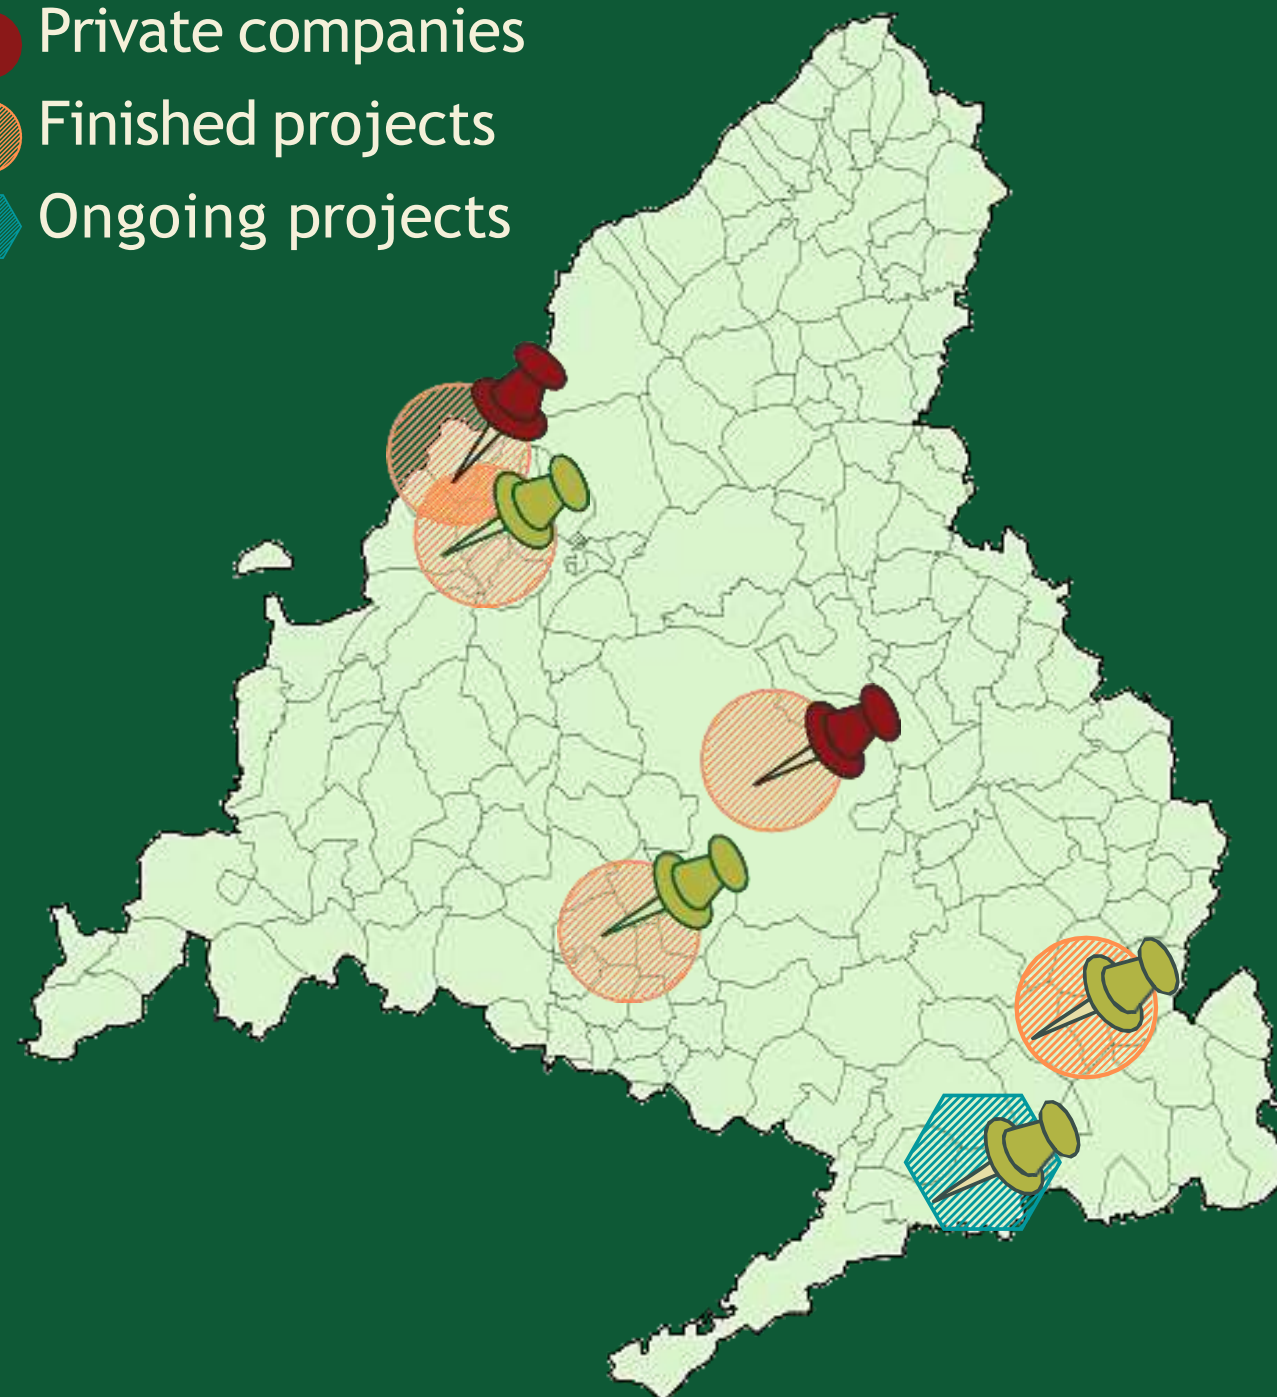

Creating opportunities to interact with agricultural landscapes

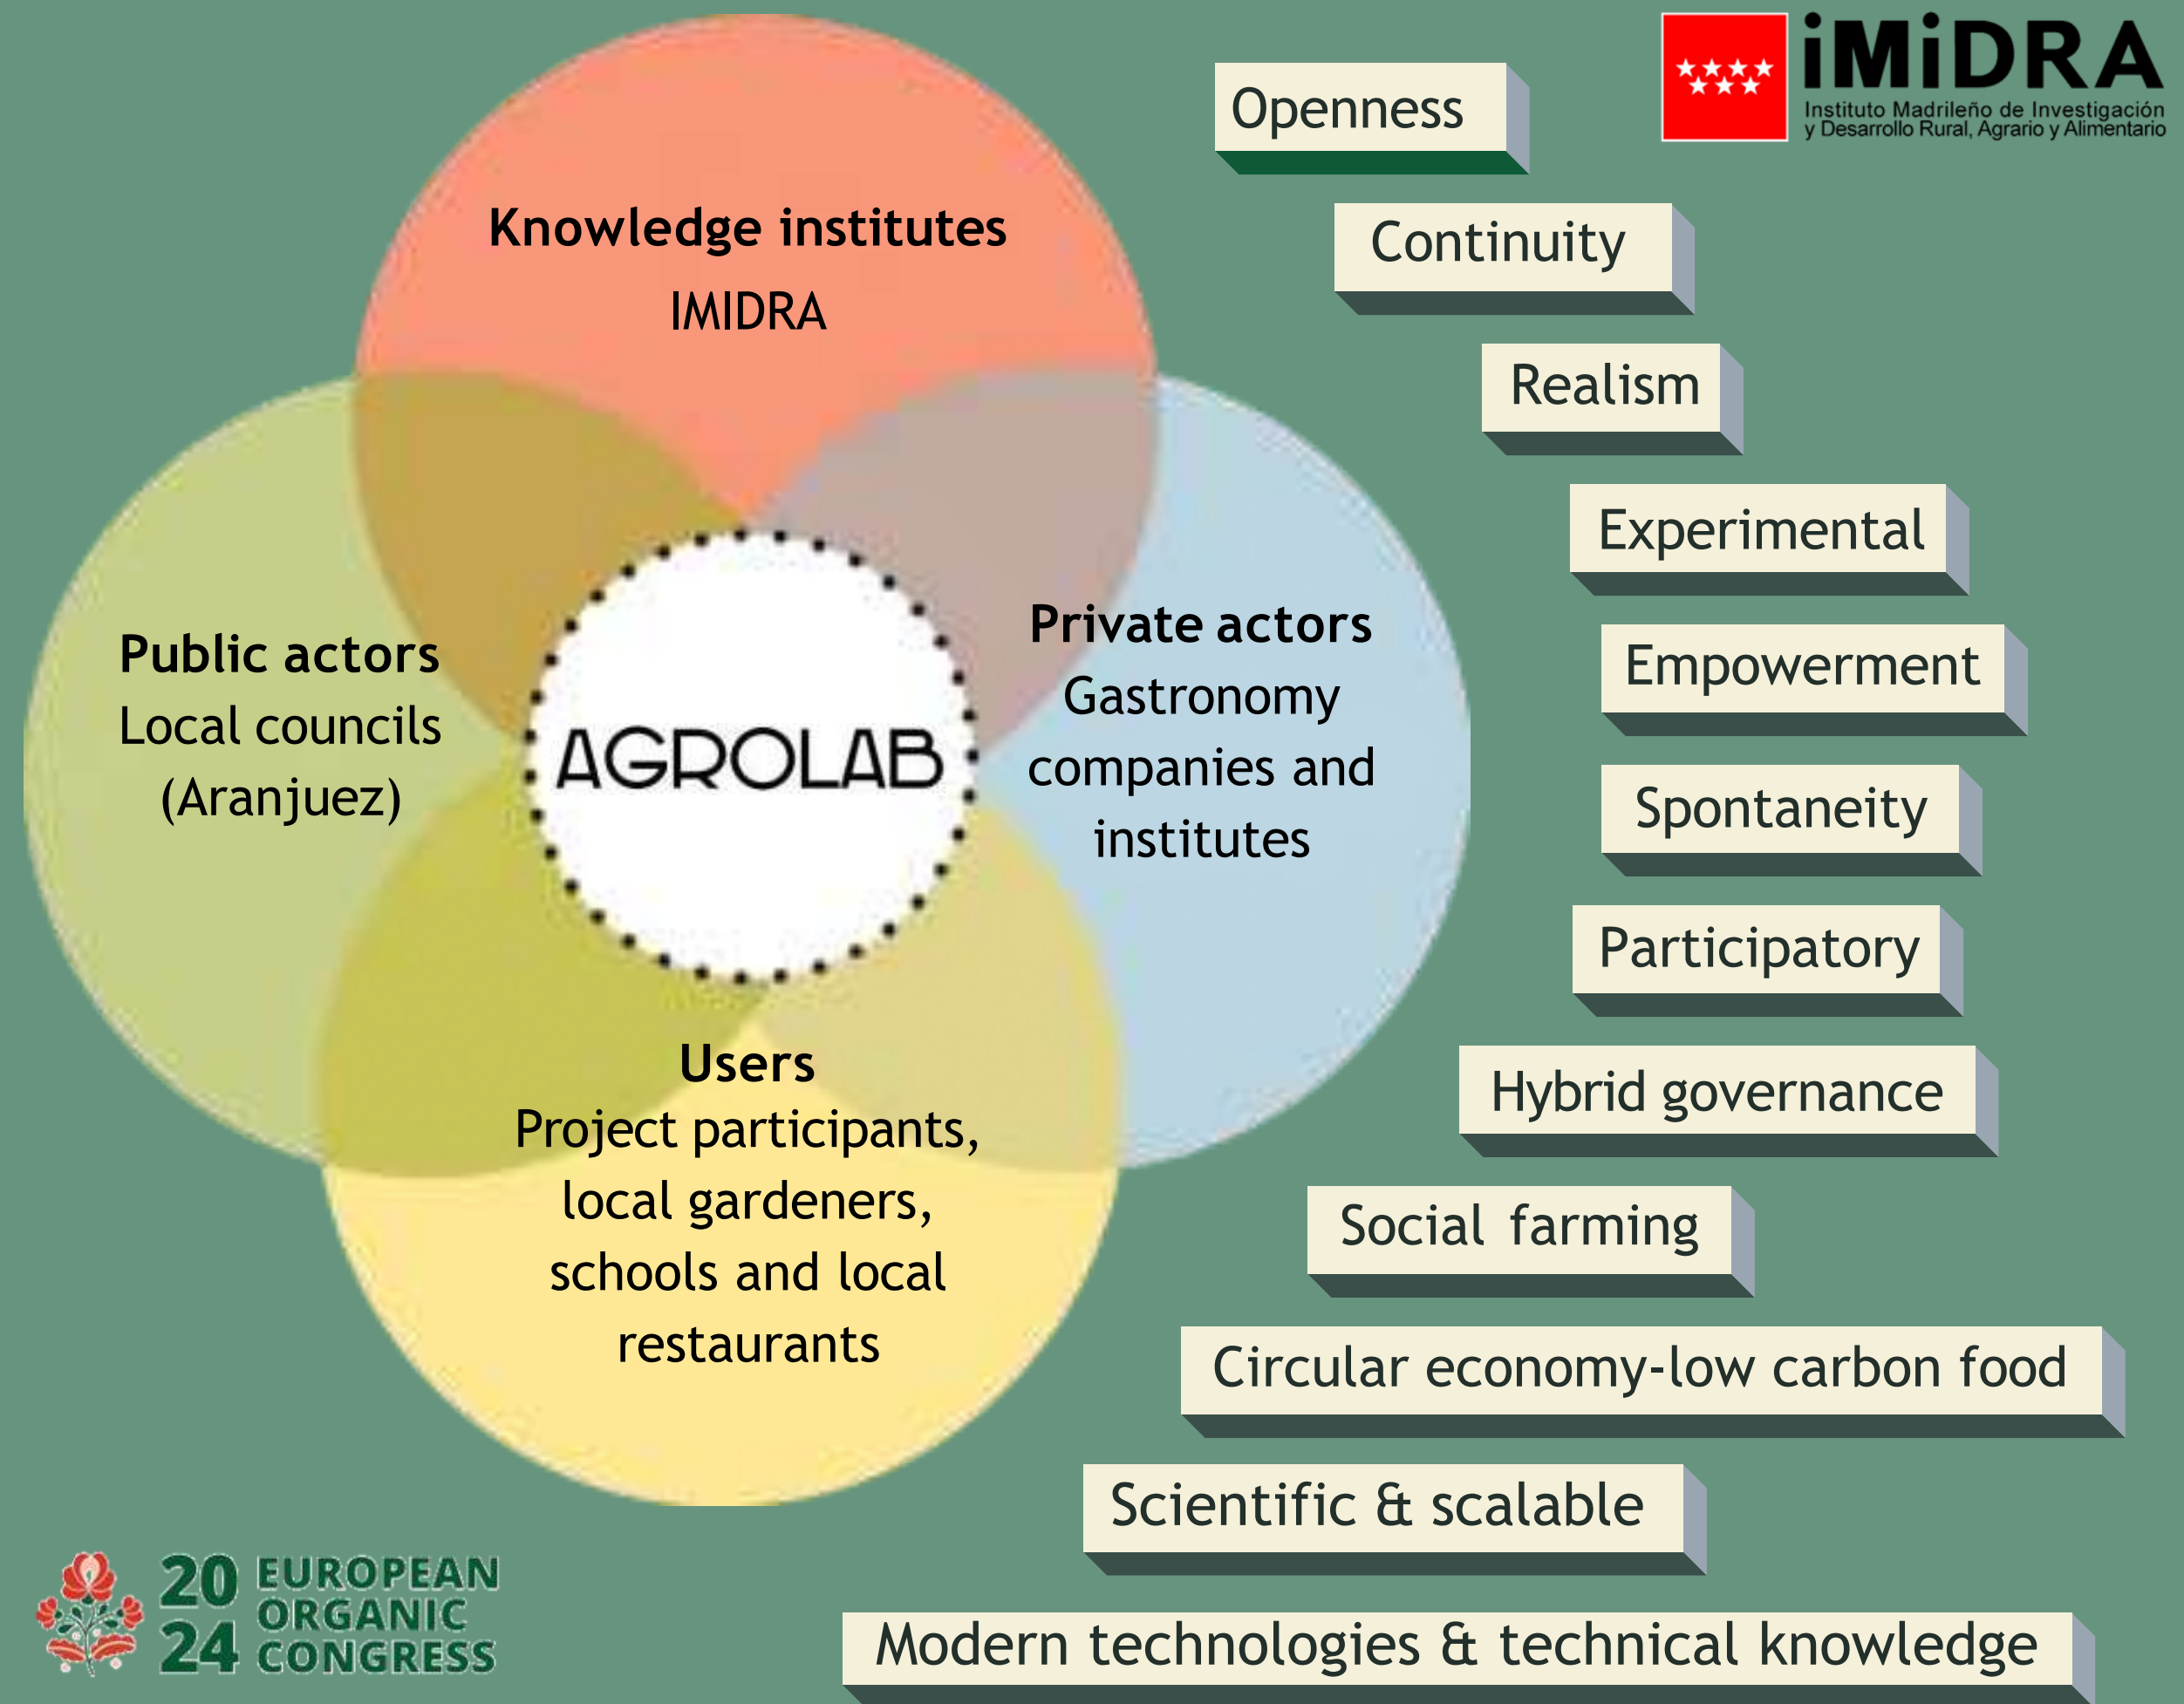

HOW DOES IT WORK?

- Local councils
- Private companies
- Finished projects
- Ongoing projects

ACTORS & PRINCIPLES

LOCAL COUNCILS

OPEN CALL

To individuals and
social/environmental associations

WEEKLY TUTORIALS

Twice a week, with the guidance
of a monitor

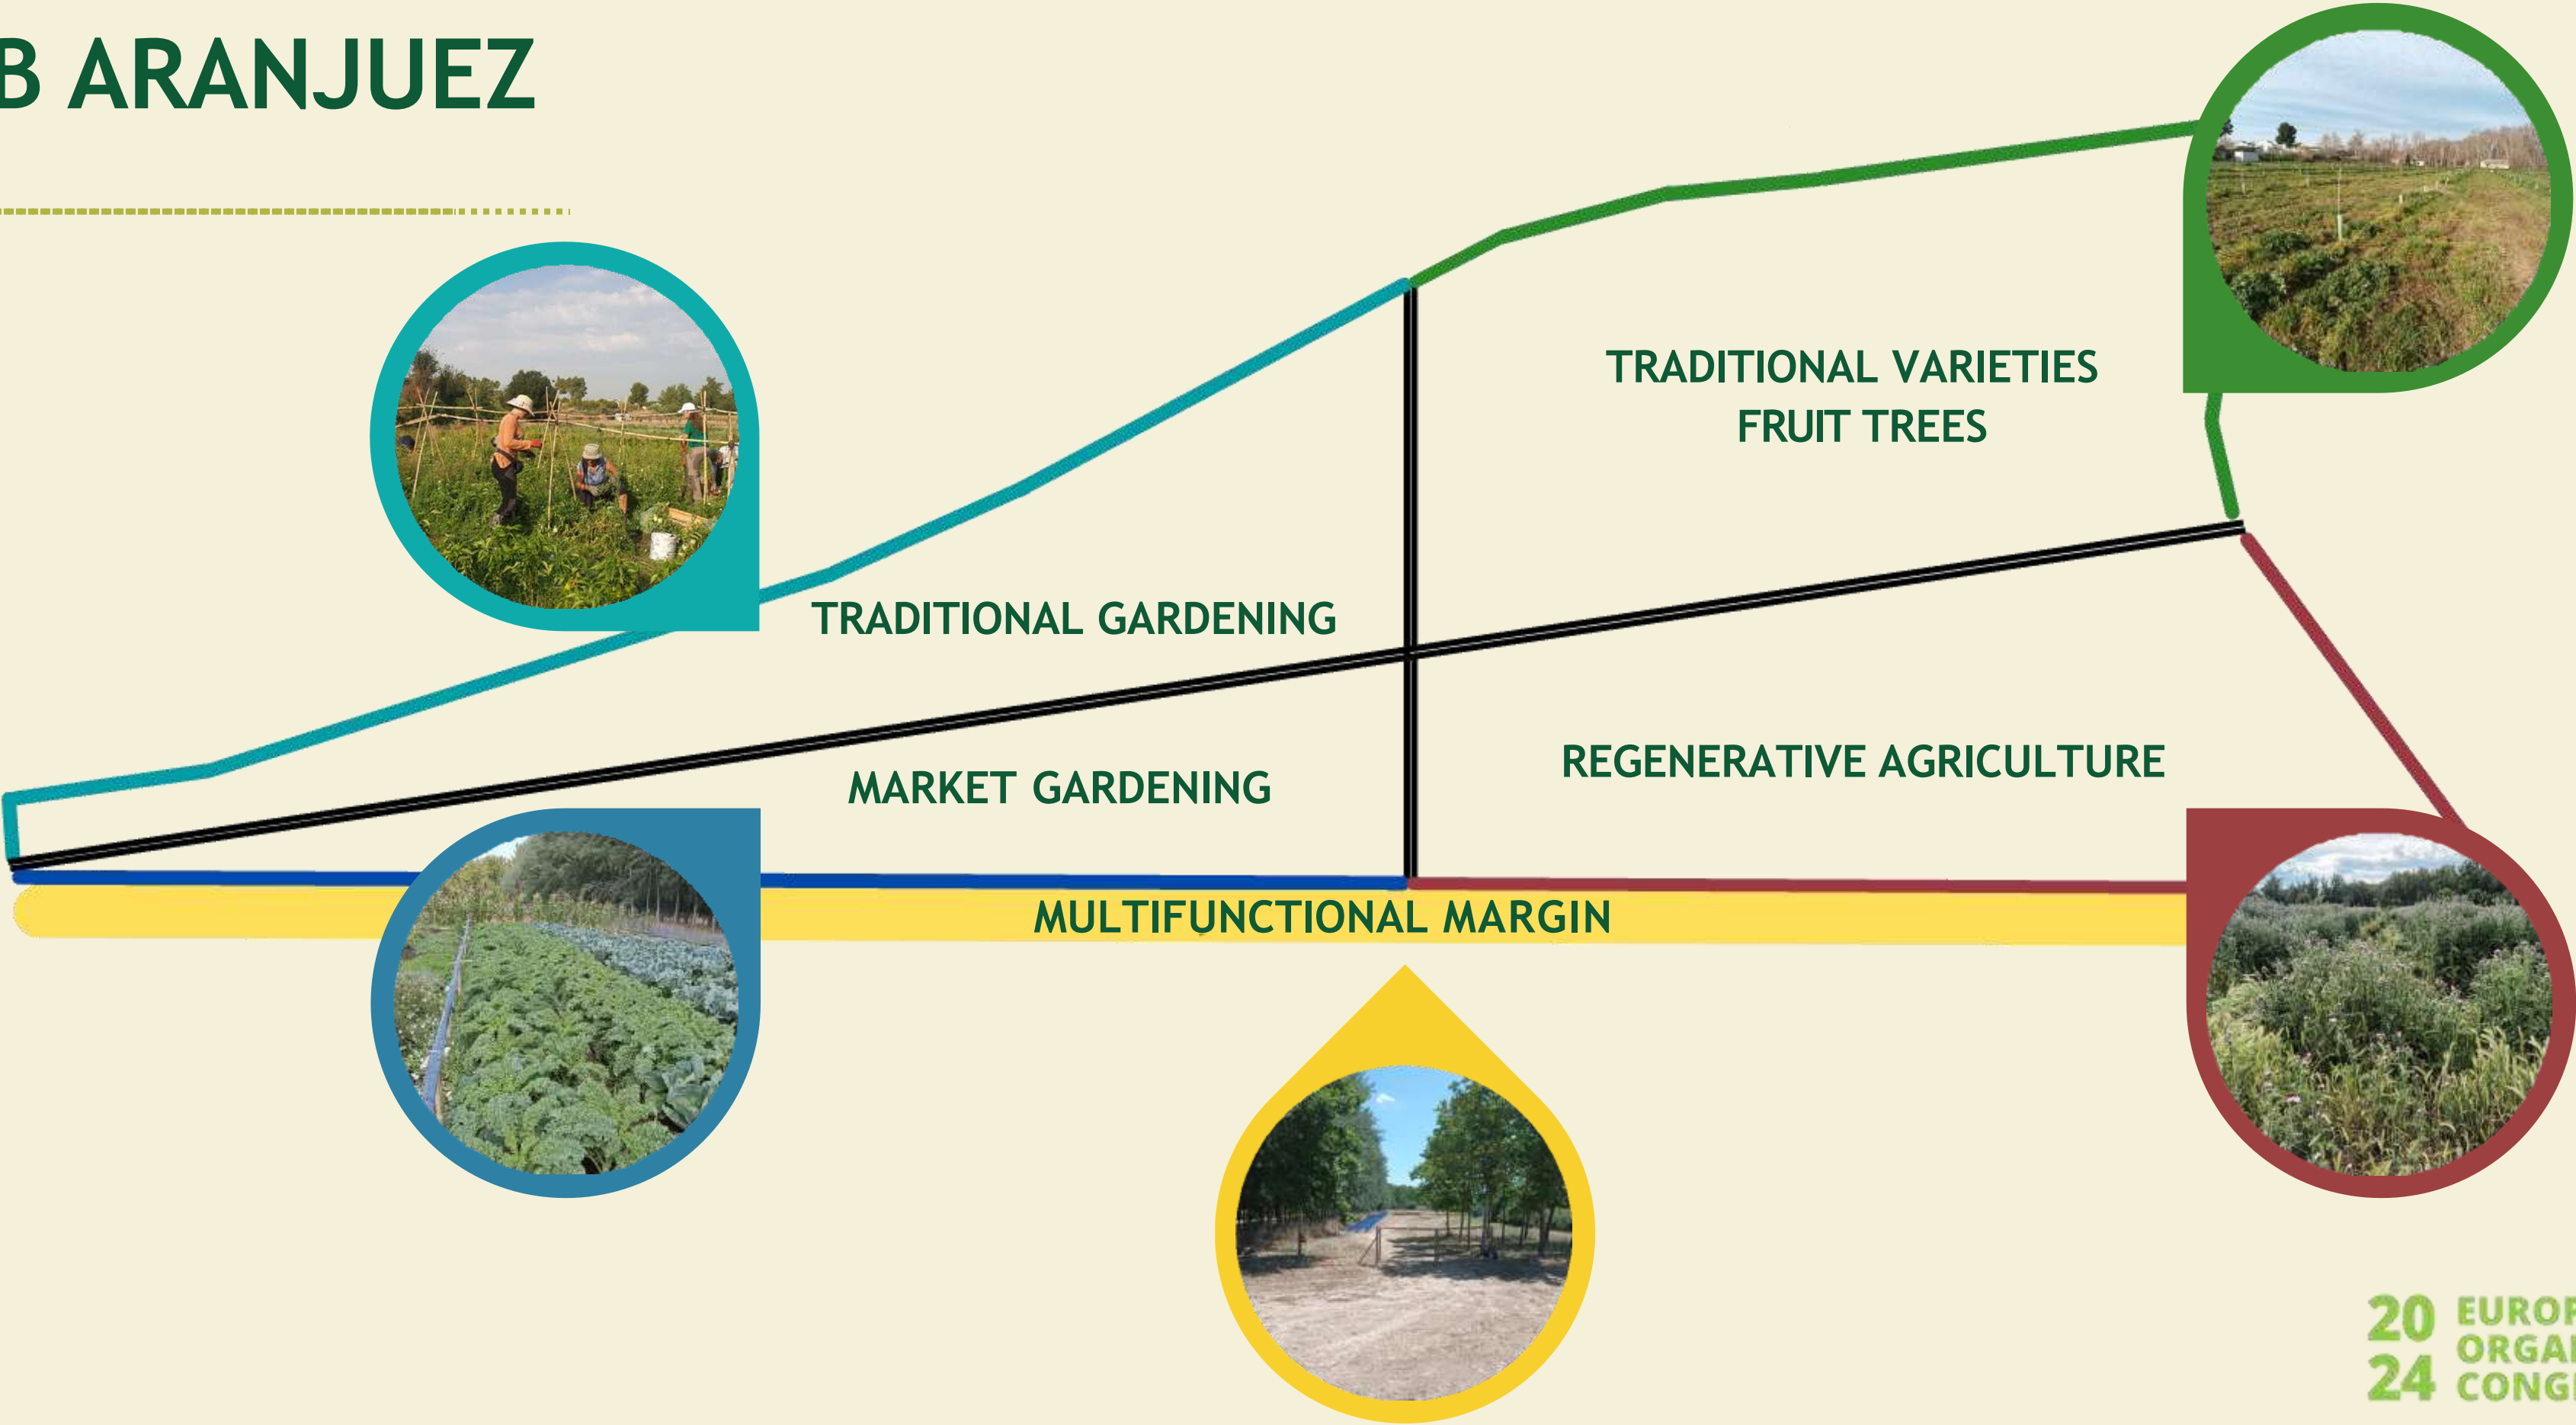

MONTHLY WORKSHOPS

Open to general public with
iMiDRA and agroecology experts
